

Please do not change Indiana law on phone solicitation. In Denver I used to get about 4 calls a day and it was very frustrating, would wake up my baby and most times you had to be rude before the solicitors would hang up. It's been a wonderful relief here in Indiana not having but 1 call every couple of weeks. I do no/will not purchase anything solicited to me by phone. If I am interested in a product, I will initiate the contact. There's no way of telling who or what you're dealing with when they call you, so I don't feel it's a safe or sound business contact. Please don't lessen Indiana law with Federal laws. Thank you for your time.
